With the LightOne™

LightOne™ FS

For ELISA

Are you buying commercially available ELISA kits?

- Kits cost about the same as a LightOne so prevent one mistake and it pays for itself. It just makes sense!
- Error proof your plate - uncross your fingers and uncross your eyes!

Catalog No.
LI-1200
\$499

Save one to save them all!

LightOne™ qRED

For Real Time PCR

Don't keep yourself in the dark, even if you are trying to optimize your PCR results!

- Ambient light will bleach your dyes, so use the correct light for maximum sensitivity, consistency and reproducibility
- Dim down or turn off the light. With the qRED, you won't have to pipette in fright!
