

All You Need for Electrophoresis In the Palm of Your Hand

RunOne Electrophoresis System

Catalog No.
EP-2100
\$525

- Includes the buffer tank, power supply and a casting system - why waste time looking for accessories?
- Tailored to fit the modern day lab without compromising the quantity of your samples or quality of your gel.

RunOne™ Electrophoresis
System

RunOne Electrophoresis Unit

You Have the Rest

Now Run the Best

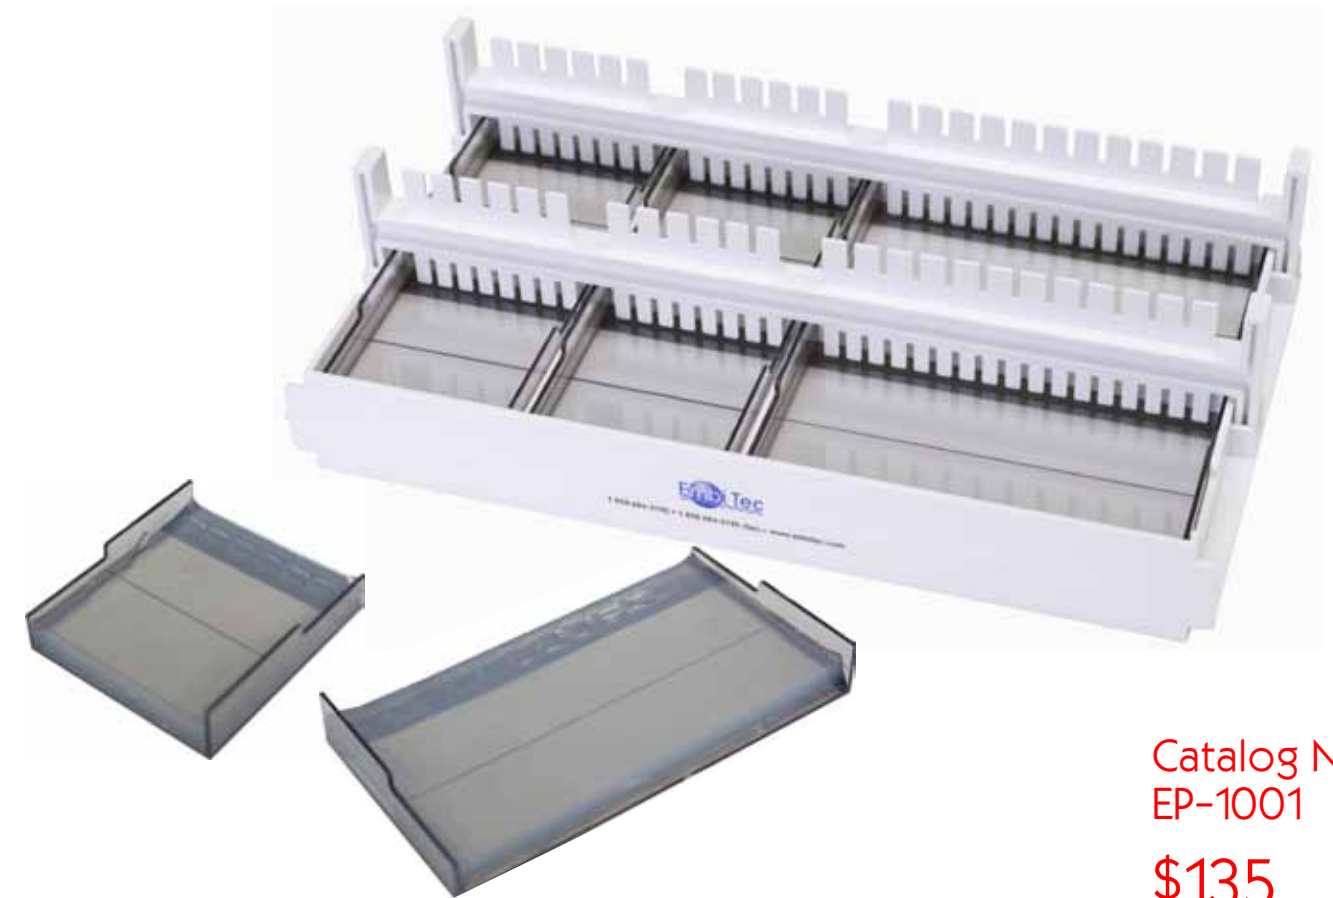

Catalog No.
EP-2115
\$415

- Quick check! Preview your results in as little as 15 minutes.
- No more over-run gels! When the timer reaches zero, the power to the gel shuts off.

Casting System

Run One Now

Save the Rest for Later

Catalog No.
EP-1001
\$135

- It's a stand-alone unit, so pour another batch of gels and save them for later use as you are running the current batch!
- No more tape, wedges, gasket, and, most importantly, No More Leaks!
